### Creative Problem Solving skills

### Kate's Corner

Hey everyone,

As we wrap up this half term, let's talk about transitions. For those of us coming into the end of our first year, congratulations on navigating the start of your college journey! It's a huge step and you've done so well. For Year 14's starting to think about their next steps, we will make sure we support you as much as possible. Remember, transitions can be both exciting and daunting, but they're also full of opportunities to make new friends.

Transitions can be both exciting and daunting but also full of opportunities to make new friends.

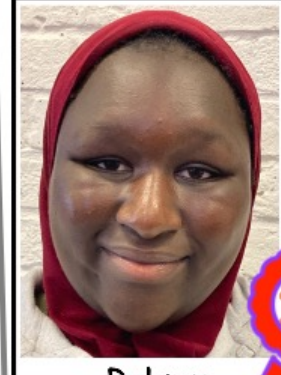

Have a lovely half term.

Kate

Have a lovely half term!

 Half Term

THE DUKE OF EDINBURGH'S AWARD

Rahmu

Celebrate  
 Happy Birthday

Our expedition challenge!

We had a fantastic Duke

of Edinburgh expedition at the beginning of this week. We all completed the 2-day challenge walking 4km each day, supporting each other to follow the map and cook our evening meal at the campsite. Along the way we stopped for a few breaks and to complete activities such as den building and bug hunts. The weather was great and we all had a lovely time.

D16 have been doing cooking both in and out of the classroom this week. Evan and Sophie had a go at cooking popcorn in Forest College. We also worked together to make a cheese free 'cheese' cake.

Skills Builder Challenge

CREATIVITY

Creativity

Invent a new chocolate bar and wrapper.

Either on your own, or in a group invent a brand new type of chocolate and design the wrapper.

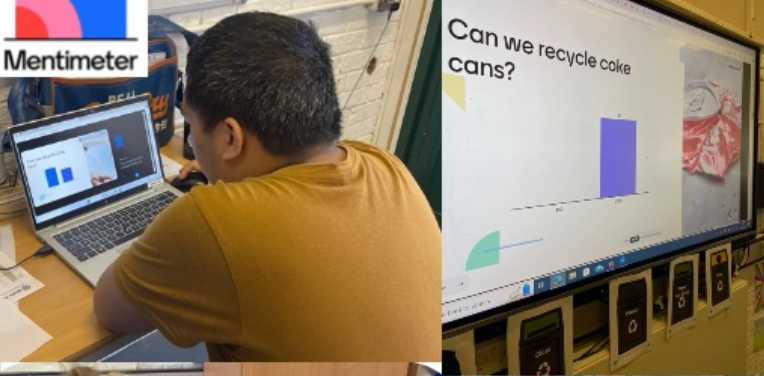

- Consider:
- What type of chocolate do you want to use? (For example, dark, white, milk)
  - Do you want any additional flavours? (For example, mint)
  - What do you want to call your chocolate?
  - What information do you need on the wrapper?

Extension: Present your new chocolate to other members of your family or friends!

M16 have been learning about different types of packaging and what can and cannot be recycled. We chatted about what happens to our waste that cannot be recycled and what happens to the packaging we can turn into something new.

quizzes

We used Mentimeter to complete quizzes.

F16 have enjoyed a walk up to Sainsbury's where we practiced our road safety and money skills. Alex really impressed us with how well he kept safe crossing roads and showed us a great example of good listening! With the weather getting warmer, we have spent time outdoors with a variety of new outdoor activities. We have also enjoyed continuing our Summer themed art where we explored different textures and ways of applying paint.
