### Self-management skills

Afternoon all,  Kate's Corner

The sensory and calm rooms are complete! A huge thank you to Sarah, our pathway manager for all her hard work in getting these rooms funded and set up.

Thank you to Sarah for her hard work in getting our

new sensory room and calm room funded and set up!

These will be a brilliant space for our young people to go to relax and enjoy the hugely beneficial sensory experience. These rooms will be open from Monday and classes will have an allocated weekly class slot to benefit. I look forward to sharing photographs with you next week of these spaces in use.

Have a great weekend,  
Kate

A16 visited the Southampton Special Purpose Workshop. We tried all the activities on offer there such as splitting wood to make kindling, dismantling old photocopiers and printers for recycling and assembling plastics for contracted businesses. Dawid spent the morning taking apart the printer, Chardonay and Carolina worked independently in assembling inserts for fire doors, Daniel filled bags with kindling to sell, Ben split the wood for kindling and Vinnie stripped copper from spools to recycle it. We had a great morning in a busy and productive workspace.

Skills Builder Challenge      Aiming High

Choose a goal and plan how to achieve it.

Summer is almost here - it's a great time of year to think of the future. What would you like to achieve in the coming months? Write down a goal you have and begin to plan how you can reach that goal.

- Consider:
- What will success look like?
  - How will you feel when you reach that goal?
  - What will you need to do to be successful?
  - Who might be able to help you?
- Extension:** Consider how you are going to track this goal.

productive  
workplace

Today we've been perfecting our Victoria Sandwich! We chose our cooking teams and decided which skill we wanted to work on this week. We worked as a team to prepare the cake!

The highlight of F16's week was visiting Longdown Activity Farm. We all had the opportunity to navigate around using maps, feed calves and kids, as well as learn how to look after small animals like chicks and guinea pigs. Kaunen had great knowledge about the different animals, even knowing how to sign each and every one!

D16 have enjoyed doing some print making in art this week. We explored a range of different objects to see what pattern they made when dipped into paint and printed onto paper.
